

2017 SOUTHEAST DISTRICT SPRING FIRE SCHOOL

WORTHING FIRE DEPARTMENT

April 23rd 2017 – WORTHING ELEMENTARY SCHOOL

Worthing, SD

Mission Statement: To promote safety and integrate the efforts of Local, federal agencies, in structural and wildland firefighting practices.

1. Courage to be Safe (CTBS): 3-hour Afternoon class,

This course is a provocative and moving presentation by the National Fallen Firefighters Foundation, through the Everyone Goes Home® Program, that is designed to change the culture of accepting the loss of firefighters as a normal occurrence. Building on the untold story of line of duty death survivors, it reveals how family members must live with the consequences of a firefighter death. This presentation provides a focus on the need for firefighters and officers to change fundamental attitudes and behaviors in order to prevent line of duty deaths. The central theme promotes the courage to do the right thing in order to protect yourself and other firefighters and ensure that “Everyone Goes Home” at the end of the day. Firefighters must have the courage to face a multitude of risks in order to save lives and protect their communities. Their courage allows them to willingly risk their own lives so that others can be saved. A different type of courage is required to stay safe in potentially dangerous situations, avoiding needless risks and tragic consequences.

Instructor: Mike Erickson, State Fire Marshal’s Office.

2. TIMS 3-hour Morning class

In this class you will learn about scene size up, scene safety, proper truck placement, how to work with other agencies and what their objectives are or will be.

Instructor: Trooper Alex Murray, Dan Fink, Harrisburg FD

3. Forcible Entry 6-hour class

Forcible entry has become a lost art. Too many firefighters revert to size 13 boot when faced with a tough forcible entry challenge. Having no plan will set us up for failure at the door before we can even get in and make the problem go away. Learn conventional forcible entry techniques using the forcible entry door simulator(s). This no nonsense class will be hands-on with a short classroom and have you making quick work of your next locked door. **Equipment Requirements:** NFPA compliant PPE including safety glasses and hearing protection. SCBA is not required, but students may bring SCBA to use during simulation if they wish.

Instructor: Adam Fink, Sioux Falls Fire Rescue/Yankton FD.

4. Hazmat Awareness 6-hour class

Classroom Workshop: Is an introduction to the railroad industry, BNSF specific information is presented in limited area only. This is an interactive presentation and open to questions, comments and feedback from all attendees. A classroom syllabus will be given to each student to keep and use for future reference.

Hands-on: Is conducted using railroad specific training trailers or one of BNSF's training tank cars. This training focuses on familiarization with various valves and fittings on pressure and general service tank cars. Leaks can be simulated on most of the equipment so attendees can obtain experience in the appropriate response methods used to address them. **Equipment Requirements:** NFPA compliant PPE including safety glasses

Instructor: Dirk Lamkin, BNSF

5. Accountability to IC

Harrold Timberman will be present at registration with the accountability system for any questions.

6. Ag Extrication 6-hour class

This Six-hour class is designed to prepare emergency personnel for a response to an ag related incident. Topics to be covered: -Scene safety- Resource management- Ag/industrial machinery entrapment -Disentanglement of a victim from common farm related accidents -Proper tools for the job -Patient care during and after the entrapment. **Equipment Requirements:** Proper NFPA approved gear is required, (full PPE) Come prepared to get dirty. Thinking outside of the box is encouraged! Instructors from Sioux Falls Fire Rescue 8 Crew Captain Todd Lowe, FAO Tim Hoekman , Firefighter Dustin Luebke and Firefighter Nathan Strasser will bring a combined experience of Agriculture background and Fire service extrication experience. EMT hours will be available for the class.
